

The background features a dark blue field with a dense, glowing red particle effect. A large, white-outlined hexagon is centered on the page. Four solid red hexagons are positioned at the corners of the white hexagon: top-right, bottom-right, and two on the left side. The text is centered within the white hexagon.

VR Technical
Services LLC

"Adding Value, Through Innovation"

About us

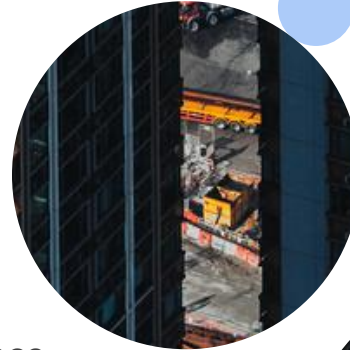

We introduce “**VR technical services LLC.**”, whose Management and key personnel have over three decades of experience and proven track record, in the UAE’s construction and exhibition industry.

We project our company not only as one who is specialized in the services we provide; but also, a company who invests in R&D for the betterment of HUMAN LIFE through the services we provide.

Quality Plan

V R Technical Services will have a project specific quality assurance plan is to ensure that the company quality management system is fully complied / implemented in terms of specific reference to the proposed Project requirements. We are in the process of certification for ISO 9001 certification. The Project Quality Plan (PQP) for construction work is a written plan which serves as the basis for the overall Project Quality Assurance System and identifies the Quality requirements, methods to achieve Project Quality objectives & continual improvements during the work execution.

HSE Plan

We have a very strong HSE plan, and we follow the plan very strictly. The Management of HSE and associated Contracts, Legislation, Codes of Practice, Guidelines, Standards, Procedures and references identifies and encompasses the working behavior and safe work practices that are mandatory for the project. The HSE Plan defines the strategies that shall be used by V R Technical Services(VRTS) management to manage the HSE performance of VRTS, Sub-Contractors, Vendors and Visitors. VRTS is legally responsible for ensuring conformance to all applicable aspects of Legislation and best international practices.
